16-Port 10/100Mbps Unmanaged Switch

Model No. SW16

Low-power run IEE802.3az

Auto MDI/MDIX

Rackmount Desigh

Plug & Play

Overview

SW16 is a Fast Ethernet Switch that designed for large home, SMB (Small and Medium Business) or workgroup users.

All 16 ports support auto MDI/MDIX, no need to worry about the cable type, simply plug and play.

Moreover, 19-inch rack-mountable steel case makes the device an ideal solution for business and office use.

> Features

- 16 10/100Mbps auto-negotiated RJ45 ports.
- Supports IEEE 802.3x flow control for Full Duplex mode and backpressure for Half Duplex mode.
- 4K entry MAC address table and automatic address learning.
- Auto-MDI/MDIX eliminates the need for crossover cables.
- Store- and-Forward Switching scheme.
- Performs non-blocking full wired speed.
- Standard 19-inch rack-mountable steel case.

Selling point

Fast Ethernet Speed

SW16 provides 16 10/100Mbps RJ45 ports that could greatly expand network capacity and simplifies cable deployment.

All ports detect the network speed and auto-negotiate (either 10 or 100Mbps) to provide maximum speed possible for each device connected to your network.

No configuration required, simply plug and play for easy use. You're allowed to add up to 16 devices using Ethernet cable to expand your wired network.

Auto MDI/MDIX

Auto MDI/MDIX function helps to figure out if the link needs a straight-through or cross-over connection automatically. No need to worry about cable type.
